Subject: RE: Final SOP for 4-MCHM in Air

Raj,

We should talk when you have a minute.

First, can we share this SOP with others? Right now, with the contractor doing cleanup for Freedom Industries.

Second, it looks like there is renewed interest in doing sampling again. MCHM was found in some water field blank samples.

There is some concern it could be in the air and affecting the field blanks (thus the interest by the company's contractor).

So.....WVDEP would be interested in your collecting air samples right where the cleanup work will be

ongoing.

Sort of where one would expect highest levels. Doing air sample collection at the site perimeter or near or at homes/schools will need to wait until we see if we can come up with a health screening value. I am about to restart trying to coordinate work on a screening level.

Sampling at the site will require coordination with Melissa Linden, R3 OSC most involved at the site.

(Have to go to a meeting offsite in a few minutes. Be back after 3 pm. Available anytime by cell phone tomorrow).

Jack ,

Please attached find SOP for 4-MCHM. If there are any question , please let me know .

Thanks

Raj

PS: the air sampling sop will be provided at a later date after field trial or simulation in the lab using chamber .
